Sheria 360

Empowering Justice Access. Connecting citizens to legal resources, aid, and court case tracking.

by Raddames Tonui

Problem Statement

Struggling with legal challenges? Finding help is tough. Tracking court cases feels like a maze.

1 **Lack of Information**

Limited access to clear legal information.

2 **Inaccessible Legal Aid**

Finding and affording legal help is challenging.

3 **Opaque Court Systems**

Difficulty tracking case progress.

Solution: Justice Access Website

Sheria 360 simplifies legal access. Provides information, aid connections, and case tracking.

Easy Access to Information

Key Features

Sheria 360 offers comprehensive legal support. Features include information, aid, and case tracking.

Legal Information

Access free, easy-to-understand legal resources, simplifying complex laws and procedures to help users make informed decisions.

Legal Aid Connections

Easily connect with lawyers and legal aid organizations for support and guidance, making legal help more accessible.

Case Tracking

Get real-time updates on your court case, including hearing dates and rulings, to stay informed throughout the legal process.

Target Audience

Sheria 360 benefits a wide range of users. It helps citizens, lawyers, and courts.

🔍

General Public

Offers individuals access to essential legal information and resources, empowering them to navigate the legal system and seek justice more effectively.

⚖️

Lawyers & Law Firms

Provides an opportunity for legal professionals to expand their client base while facilitating efficient case management, allowing them to serve clients better and streamline their practices.

Courts

Improves case transparency and operational efficiency, enabling courts to manage cases more effectively and ensure that all parties involved have clear visibility of the legal processes.

Revenue Model

Sheria 360 has potential revenue streams. Premium features and partnerships are possible.

1 **Legal Document Templates**

Provide downloadable legal document templates for a fee, catering to individuals and businesses that need standardized documents without hiring a lawyer.

2 **Partnerships & Referrals**

Establish referral agreements with law firms for clients directed to them through the platform, generating revenue from successful conversions.

3 **Membership Tiers**

Create different membership levels offering varying degrees of access to premium features, resources, and services tailored to specific user needs.

Technology Stack

Sheria 360 uses modern technologies. It leverages robust and scalable systems.

Frontend	HTML, Tailwind CSS, JavaScript, React
Backend	Python Flask, Firebase
AI & Version Control	Gemini AI, Github

Competitive Analysis

Sheria 360 stands out from competitors. It combines legal aid with case tracking.

Comprehensive Solution

Integrates AI technology that summarizes complex legal information specific to Kenyan law, making it accessible to users.
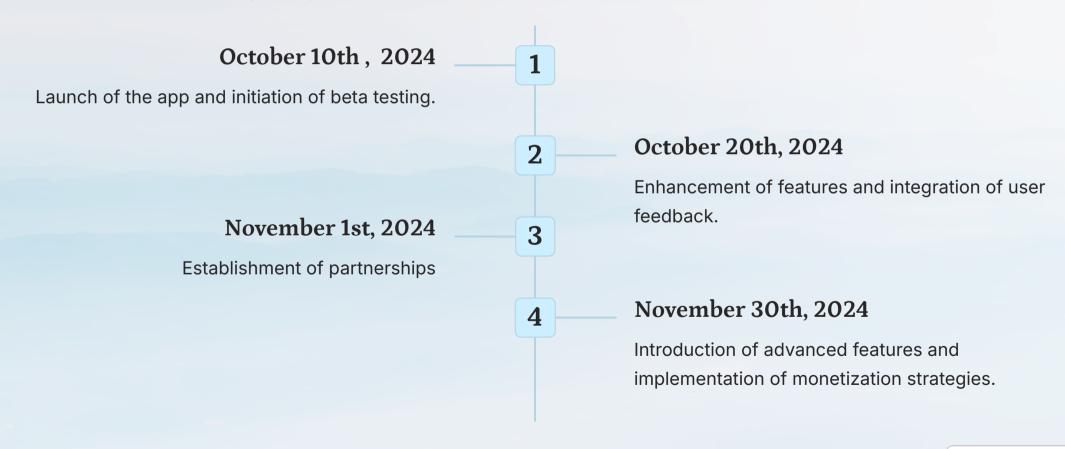

Case Tracking

Combines tracking of court cases with real-time updates to keep users informed about their legal proceedings.

Legal Documents

Offers access to essential legal documents, streamlining the process for users needing standardized forms and templates.
